I have had the pleasure of living in our building since 2006 and have often said how much I enjoy this building and how lucky I feel to be living here. In my opinion it is one of the best condos in the City of Toronto with its location, design and history.

In the past ten years we have seen more changes take place in our building than the previous thirty years. I feel these changes were necessary to maintain the integrity and structure of this building. Some of the changes I love, and others not so much, but it is a democracy and you cannot please everyone all of the time. Right now, I am not sure how much input our board has to the decisions being made in the commercial area of our building, but certainly what they do downstairs will have some effect on the value of our homes.

I am interested in serving on the board to be part of the decision making process going forward from here. I feel there is a need for the residents to be kept up to date, on all aspects that concern our building, with continued open communication at all times.

I have worked and volunteered in many areas. Following graduation from Business School in Ottawa, I worked over the years as a secretary in Ottawa, Bermuda and Toronto. Then for many years my primary role was as a wife and mother. However, during that time I taught swimming, and volunteered at various times with our local schools, Boy Scouts, the AGO, Concerned Citizens of King Township, Nobleton Business Association and the Canadian Cancer Society, getting involved initially with the Terry Fox Run, and then going on to create a Newsletter for all of the districts in York Region.

The Canadian Cancer Society experience was probably the main factor in being accepted in the Journalism program at Ryerson University. I graduated in 1988 with a degree in journalism and a certificate in public relations. That same year I ran for public office in King Township and was elected as a councillor in Ward 2. During that time, I served as Chair of Planning & Development, Co-Chair of Roads & Works, and Co-Chair of Bylaws. It was a wonderful experience.

I feel I have the interest, experience, time and energy to devote to this beautiful building we all call home.

Respectfully submitted,

Patricia Watt
