

*Dorothy McComb. Suite 913.*

*Submission in support of candidacy to the Board of Directors – June 3, 2021.*

First elected to the Board in 2015, I have completed two terms and am submitting an application for a third. I look forward to being able to remain to work with the highly qualified current board members, with the objective of ensuring our condominium building continues to be a distinctive and attractive place to live - and a sound investment.

I am a retired dentist and dental educator (University of Toronto) who was involved for many years in teaching students and directing comprehensive patient care at the Faculty of Dentistry. For several years I was also a member of the professional regulatory board (Royal College of Dental Surgeons of Ontario), involved in disciplinary, financial and quality assurance board committees.

Since 2015 I have learned a great deal about the structural issues, finances and management of this distinctive building. In particular I have been involved, with others, in the development of the atrial gardens, the refurbishment of the pool area/changerooms and, more recently, the much needed “refresh” of the front lobby. Developed as an exclusive residential/commercial building with architectural distinction, this building is indeed special and we must continue to meet the increasing challenge of maintaining its cachet and Art Deco archeological features as it ages. The Board members work conscientiously and assiduously on your behalf in this regard. We are also fortunate to have a Property Manager with years of involvement and extensive experience in this building. I am committed to continue to work diligently with all.
